

What the
air filter in your
HVAC system
doesn't catch,
you do.

PuriFi inactivates up to **99.99% of tested viruses and bacteria*** from the air in your rooms, not just the air in your ductwork.

See reverse side for details.

PuriFi

Inactivates up to
99.99% of tested
viruses and bacteria*

Neutralizes
odors, smoke,
and mold

Reduces allergens,
including pollen, dust,
and pet dander

Whole-home air purification that proves its performance.

PuriFi continuously measures and monitors indoor air,
responds to changes, and verifies your air is pure.

PuriFi

The science of real-time
air and surface purification.

*To view test reports on specific contaminants, environmental test conditions, and performance levels of PuriFi, please visit: PuriFiLabs/test-reports/. Actual results may vary based on environment and occupied space.
